	10 OCTOBER	 Sampling for Real-World Baselines	INTERMEDIATE	₹699

BEGINNER

Perfect for those starting their MEL journey.

INTERMEDIATE

For those with some experience looking to go deeper.

Invest in your skills. Drive greater impact.

From our Learning Community

“ Practical tips transformed our proposal writing. Secured two major grants within months of the workshop.

The facilitated ToC development was participatory, rigorous, and produced a Theory of Change our board actually uses.

Finally, a sampling tool designed for development contexts! Handles cluster sampling and stratification beautifully.

The coding and thematic analysis features rival expensive software. Essential for our research team.

About the Facilitators

Dr. Varna Sri Raman

Dr. Varna Sri Raman — Co-Founder and Lead of Learning Design & Impact. Development Economist with a PhD, specializing in social impact measurement, gender studies, and development research across South Asia.
